United States of America

Department of Transportation -- Federal Aviation Administration

Supplemental Type Certificate

Re-issued on July 7, 2008 to supersede the original STC, which has been lost or misplaced or destroyed.

Number SA3323WE

This certificate issued to B/E Aerospace, Inc.
1455 Fairchild Road
Winston-Salem, NC 27105

certifies that the change in the type design for the following product with the limitations and conditions therefor as specified hereon meets the airworthiness requirements of Part 25 of the Federal Aviation Regulations.

Original Product - Type Certificate Number A3WE

Make: Boeing

Model: 727-200

Description of Type Design Change: Installation of a forward facing flight attendant seat on the forward galley (for models 727-2J7 and 727-264).

Limitations and Conditions:

NOTE 1 - This STC Re-issue is based on the surrender of this STC from B/E Aerospace on July 2, 2008. Additionally, the original certificate, as well as the ACO last known copy, was lost, misplaced or destroyed. As of the surrender date, no new installations of this STC should occur without express written authorization from the cognizant Aircraft Certification Office. Per the Transport Airplane Directorate, future unsafe conditions existing in the product may result in an airworthiness directive requiring correction of the unsafe condition before further flight. If there are no entities to comply with 14 CFR § 21.99(a), "Required design changes", the existence of an unsafe condition may result in permanently grounding the aircraft. Contact the Atlanta Aircraft Certification Office for further details.

This approval should not be extended to other aircraft of this model on which other previously approved modifications are incorporated, unless it is determined by the installer that the interrelationship between this change and any other previously approved modifications will produce no adverse effect upon the airworthiness of that airplane. If the holder agrees to permit another person to use this certificate to alter the product, the holder shall give the other person written evidence of that permission.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.

Date of application: January 20, 1977

Date of issuance: See Note 1

Date reissued: April 23, 2002; July 7, 2008

Date amended:
