Supplemental Type Certificate

Number: SA01928WI

This certificate issued to: James Kjeldgaard
1203 West 23rd
Fremont, NE 68025

certifies that the change in the type design for the following product with the limitations and conditions therefore as specified hereon meets the airworthiness requirements of Part 4a *of the* Civil Air Regulations.

Original Product – Type Certificate Number: A-738

Make: Stinson
Model: 10A, S/N 7843

Description of Type Design Change:

Replacement of Franklin Engine Model #4AC-199-E3 with 90 HP with Lycoming Engine Model #0320-A2A with 150 HP and installation of McCauley Propeller No. IC172AGM7254. Data required:
1. Supplemental Airplane Flight Manual, No. 7834, Rev OR, dated November 14, 2019; and
2. James Kleegaard Drawing Numbers 10-1 through 10-7, or later FAA Approved revision of 1 or 2.

Limitations and Conditions:

1. This is a One-Only STC, for Stinson Model 10A, S/N 7843. Data pertaining to this modification are considered inadequate for duplication in other aircraft.
2. Aircraft must be operated per Supplemental Airplane Flight Manual, No. 7834.
3. Aircraft must be maintained per Instructions for Continued Airworthiness, No. ICA10A150, or later FAA accepted revision.
4. Compatibility of this design change with previously approved modifications must be determined by the installer.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, and revoked or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.

Date of Application: March 5, 2016

Date Reissued:

Date of Issuance: November 25, 2019

Date Amended:

By Direction of the Administrator

Any alteration of this certificate is punishable by a fine of not exceeding $1,000, or imprisonment not exceeding 3 years, or both. This certificate may be transferred or made available to third persons by licensing agreements in accordance with 14 CFR 21.47. Possession of this Supplemental Type Certificate (STC) document by persons other than the STC holder does not constitute rights to the design data nor to alter an aircraft, aircraft engine, or

propeller. The STC's supporting documentation (drawings, instructions, specifications, flight manual supplements, etc.) is the property of the STC holder. An STC holder who allows a person to use the STC to alter an aircraft, aircraft engine, or propeller must provide that person with written permission acceptable to the FAA. (Ref. 14 CFR 21.120).
