* See attached Federal Aviation Administration (FAA) Approved Model List (AML) SR02650SE for approved aircraft models and applicable airworthiness regulations

Description of the Type Design Change: Installation of Station 34.5 Beam Modification in accordance with Installation Instructions TA-34.5-INST-1, Revision 0, dated July 10, 2019, or later FAA approved revision. Manufactured in accordance with Master Drawing List as listed on AML SR02650SE dated July 16, 2019, or later FAA approved revision. Maintained in accordance with the Instructions for Continued Airworthiness (ICA) as listed on AML SR02650SE dated July 16, 2019, or later FAA approved revision.

Limitations and Conditions: Approval of this change in type design applies to the rotorcraft listed on AML SR02650SE only. This approval should not be extended to other rotorcraft of these models on which other previously approved modifications are incorporated unless it is determined by the installer that the relationship between this change and other previously approved modifications will introduce no adverse effect upon the airworthiness of that rotorcraft.

A copy of this certificate, AML SR02650SE, and ICA, must be maintained as part of the permanent records for the modified aircraft. If the holder agrees to permit another person to use this certificate to alter the product, the holder shall give the other person written evidence of that permission.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked, or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.
