Supplemental Type Certificate

Number: SE2388CE

This certificate issued to: B & C Specialty Products Inc
123 E. 4th Street
Newton, KS 67114-0894

Certifies that the change in the type design for the following product with the limitations and conditions therefore as specified hereon meets the airworthiness requirements of Part 13 *of* Civil Air Regulations.

Original Product Type Certificate Number: E-295

Make: Lycoming Engines

Model: O-540 series

Description of Type Design Change:

Installation of B&C Speciality Products lightweight (10.2) pounds) engine starter, part number BC-315-100-1 (12 volts) or part number BC-315-100-3 (24 volts) on engines with ring gears that have 122 teeth, and part number BC-315-100-2 (12 volts) or part number BC-315-100-4 (24 volts) on engines with ring gears that have 149 teeth. Data required: B&C Specialty Products Starter Installation Instructions, FAA Approved on July 21, 1988, or later FAA Approved revision.

Limitations and Conditions:

1. Compatibility of this design change with previously approved modifications must be determined by the installer.
2. This approval should not be extended to other specific engines of these models on which other previously approved modifications are incorporated, unless it is determined that the interrelationship between this change and any of the other previsouly approved modifications will introduce no adverse effect upon the airworthiness of the engines.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked, or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.

Date of Application: January 12, 1988

Date Reissued: June 20, 2024

Date of Issuance: July 22, 1988

Date Amended:

By Direction of the Administrator

Any alteration of this certificate is punishable by a fine of not exceeding $1,000, or imprisonment not exceeding 3 years, or both. This certificate may be transferred or made available to third persons by licensing agreements in accordance with 14 CFR 21.47. Possession of this Supplemental Type Certificate (STC) document by persons other than the STC holder does not constitute rights to the design data nor to alter an aircraft, aircraft engine, or propeller. The STC's supporting documentation (drawings, instructions, specifications, flight manual supplements, etc.) is the property of the STC holder. An STC holder who allows a person to use the STC to alter an aircraft, aircraft engine, or propeller must provide that person with written permission acceptable to the FAA. (Ref. 14 CFR 21.120).
